LEGENDS OF DHA FOR THE PLAYSTATION VITA

WE USE POWERUPS proudly announces its debut game LEGENDS OF DHA for the PlayStation®Vita

LEGENDS OF DHA is a singular RTS side-scroller title for the PlayStation®Vita. A tale of adventure and mystery in the land of the sacred Mountain of DHA.

“Legends of DHA is a unique RTS game, build specifically for the PlayStation®Vita”, says Juan Alberó, design director. “We wanted to achieve an engrossing and accessible, story-driven experience, that delivers plenty of fun. We grew up playing video games and gaming has always been a very important part of our lives. We tried building a new take on the RTS and RPG genre for consoles, create a new experience set in a fantasy world like those we grew up loving, with a deep story and original gameplay we believe only possible with the Vita.”

Lead courageous heroes that fight for humanity, mysterious arcane wizards that summon the magic and fierce dragons that protect their sacred lands and unveil the mystery behind The Mountain and the Darkening of the Sky.

Control over your army with a simple gesture and decide how to outwit and overpower your foes. Deploy your units in the map and have them take a key advantage against your enemies

Unleash your forces with over **18 different units, including aerial ones**, 20+ structures and over 40 different special attacks to unlock and power up and **battle again gigantic Bosses.**

For more information on the game, visit our website. www.legendsofdha.com

ABOUT WE USE POWERUPS

WE USE POWERUPS was founded in 2012 by a very small team of passionate indie developers devoted to bring players new and awesome experiences. We love makes. We make games. We care about our creative freedom, the talented team at WE USE POWERUPS and being technologically independent.
